BEFORE

Patented Technology

Effectively brings in daylight year-round. Optimising light capture and maximising available daylight for a bright and uplifting ambience no matter the season.

Block Harmful UV Rays

Optically advanced dome protects your home's flooring, walls and furniture from fading by blocking nearly all harmful UV rays.

Easy Installation

Innovative tubular design offers greater flexibility for installation. Designed to install quickly with no major modifications to your attic or roof.

Improved Health & Wellbeing

Exposure to natural light provides a range of health benefits to improve your physical and mental wellbeing.

Clean & Contemporary

Made from high quality materials and decorative fixtures to match the interior of your home.

Energy Savings

Reducing your reliance on artificial lighting during the day, which can lower your energy bills and reduce your carbon footprint.

1 Our patented daylight-capturing dome with Raybender® 3000 Technology and LightTracker™ Reflector brings in daylight.

What is a
Solatube
Skylight?

2 Daylight is transferred down through our Spectralight® Infinity Tube into your dark spaces.

3 Light is distributed evenly throughout your space in style with Solatube's range of diffusers.

4 Control the daylight with the touch of a button with our innovative add-on kits.

Capturing Daylight

Raybender® 3000 Technology

A patented daylight-capturing dome lens that:

- Redirects low-angle sunlight for maximum light capture.
- Provides consistent daylighting throughout the day.
- Rejects overpowering summer midday sunlight.

LightTracker™ Reflector

An innovative in-dome reflector that:

- Redirects low-angle winter sunlight for maximum light capture.
- Increases light input for greater light output.
- Delivers year-round performance.

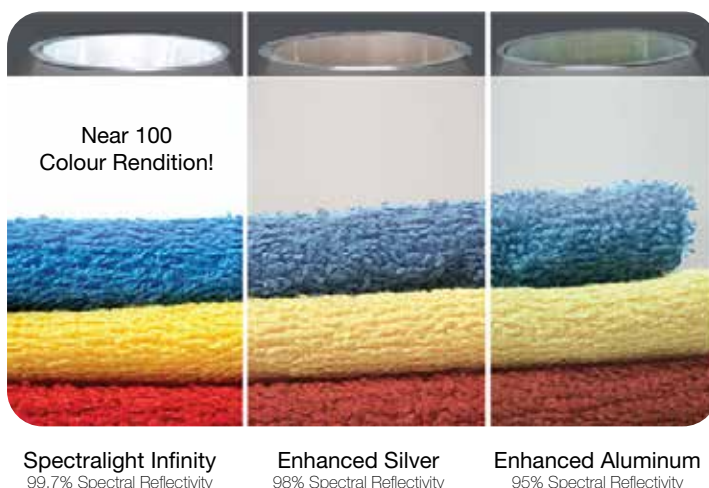

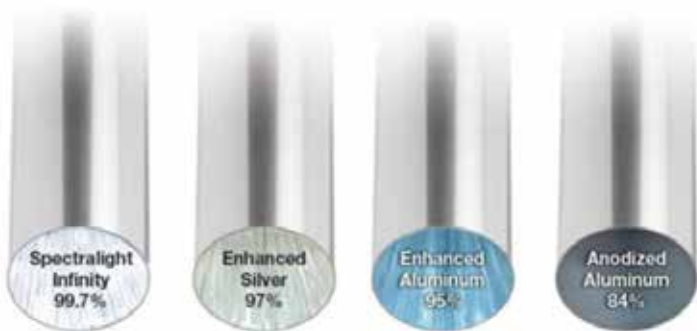

Transferring Daylight

Spectralight® Infinity Tubing

Tubing made of the world's most reflective material that:

- Delivers 99.7% specular reflectivity for maximum daylight transfer.
- Provides the purest colour rendition possible so colours are truer and brighter.
- Allows for run lengths up to 15 metres to deliver sunlight to lower floors.
- INFRAREDuction® Technology integrated using a proprietary process to filter out infrared wavelengths and minimise solar heat gain.

Highest Performance Guaranteed

Solatube DS

Highest Performance Guarantee

Unlike any other product on the market, the Solatube DS range comes with a highest performance guarantee. See website for details.

Leak Proof Design

A range of proprietary Solatube roof flashings to suit all roof types, they are water tight and secure.

10 Year Warranty

All Solatube products installed by a Certified Installation Consultant are backed by a 10 year warranty on product and installation

Natural Effect Lens

The Effects Lens provides insulation properties similar to double glazing.

BRANZ Appraised

For peace of mind the system is BRANZ Appraised (No. 665) when installation is carried out by a Certified Installation Consultant for both domestic and commercial applications.

Code Compliant

All Solatube products are code compliant for New Zealand standards. Nationwide Installation Network. Installed in only a few hours by fully trained licensed installers.

Customer Satisfaction

Over 70,000 satisfied customers and 100,000 products installed throughout New Zealand since 1992.

“

Having a Solatube fitted has been one of my best renovation decisions.

A dark dining area has been transformed into a cozy cheerful space, bathed in natural light. I highly recommend the product and the friendly efficient staff.

Decorative Lighting Fixtures

Deliver beautiful natural light with style. Solatube® decorative fixtures and diffusers enhance the look of any room with designs that range from subtle to stunning.

TierDrop™

The low-profile TierDrop features a beautiful, cascading design for a classic look. Standard trim colour is white.

Classic Vusion™ Diffuser

Featuring a classically stunning design, the Vusion Diffuser delivers radiant light that compliments any room. Standard trim colour is white.

JustFrost™ – Round or Square*

Simple, elegant design with frosted lens. JustFrost showcases daylight in a clean, contemporary design. Standard trim colour is white.

Add-on Kits

Ventilation Add-On Kit

Ideal for bathrooms and laundries, the Ventilation Add-On Kit extracts stale air while providing natural light via this multi purpose

ceiling fixture. To minimise ceiling penetration for a more attractive and less cluttered look, add a Light Add-On for electrical light at night.

Light Add-On Kit

The Light Add-On Kit provides the convenience of a switched light for night time use.

Accessories

Solar-Powered Daylight Dimmer*

Our proprietary variable butterfly baffle easily controls the amount of light entering a room with the touch of a button.

- Perfect for bedrooms, media rooms and offices.
- The one touch remote control offers intuitive control.
- Set the dimmer from fully open to closed and anywhere in between.

*Does not completely shut out daylight

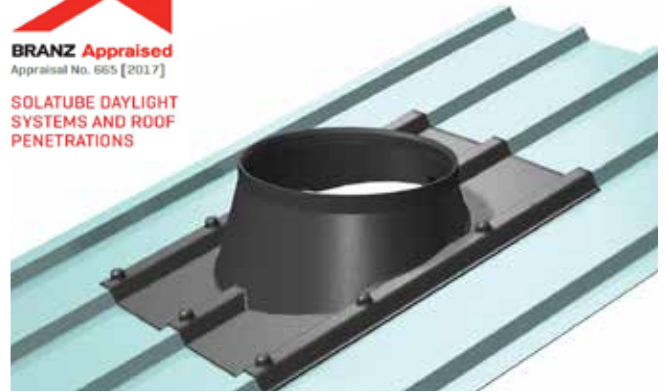

Solar NightLight

By harvesting daylight during the day, the NightLight emits a soft ambient light during the night. Ideal for hallways, stairwells, bathrooms and kitchens where a soft glowing light, not unlike moonlight on a clear night, will allow you to move around safely without turning on bright overhead lights.

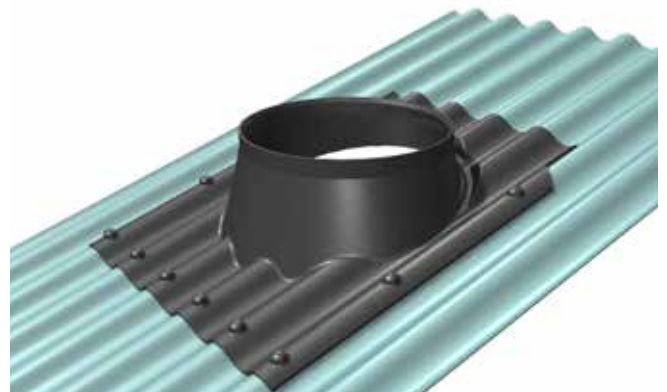

Flashing Kits

Flashing kits are available for most roof types and pitches. They are fabricated as a single, seamless piece to ensure leak-proof performance. Solatube DS systems are BRANZ Appraised for performance.
